

Assembly instructions for a table frame (one column) and a table top.

1.) For the assembly of the table top and the table frame you need the following materials:

- Table frame
- Table top
- folding rule
- screwdriver or cordless screwdriver
- 6x screws

2.) Center the frame on the table top:

Place the table frame parallel to the table top on the underside of the table top. Now measure all four sides with the folding rule as shown in the picture, so that the distance is the same everywhere

3.) Mounting of the table top:

Now tighten the screws in the holes provided. Make sure that the frame does not move.
